

EVOLUTION^{x2}

SUPER CONCENTRATES

An evolution in design
and convenience

SYMBIO

Our most portable Super Concentrate

The Evolution X2 system is an easy to use, lightweight system which instantly mixes our Evolution Super Concentrates on the go without the need to measure and dilute through traditional systems.

The Evolution X2 system uses patented dilution technology so each pull of the trigger will deliver the correct ratio of concentrate to water every time. No dials to turn, no button presses and no measuring jugs to operate, just load

the cartridge, lock it in and you're ready to go.

Safety in Use

Specially designed seals on the concentrate cartridge prevent human contact and accidental spillages. As an additional measure, the Evolution X2 system will only operate when a water and concentrate cartridge are loaded, making it even safer when switching or replacing the product.

Superior Concentrates

And, as always, each product in the range gives

you the incredible cleaning power of our Evolution Super Concentrates.

Ergonomic Design

Designed to provide comfort and reduce the risk of repetitive strain when in use.

The trigger is made from a high quality, durable plastic and has been extensively tested to ensure the spray head lasts significantly longer than a standard spray trigger.

Cost Effective

Each cartridge comes in at 325ml, making the whole system weigh less than a standard 750ml ready to use equivalent. Not only that, but each cartridge of concentrate produces the equivalent to more than 12 standard 750ml ready to use trigger sprays.

The savings in cost and time make Evolution X2 the obvious solution, leaving you to focus on delivering the best cleaning result.

Multi-Surface Cleaner & Degreaser

Former Name: Concentrated Heavy Duty Cleaner & Degreaser

A highly effective surface cleaner degreaser for use where heavy-duty soilings and caramelised grease are evident.

Spray on exterior areas of equipment, including canopy hoods, fat fryers, cookers, canopy filters, stainless steel wall cladding, glazed tiles.

4x325ml | EV2/X2

Antibacterial Multi-Surface Cleaner

Former Name: Concentrated Surface Cleaner & Sanitizer

A highly effective cleaning and sanitising product for all hard surfaces including work surfaces, microwaves, fridges, freezers, chopping boards and tiles. It has been tested to BS EN 1276 and found to kill 99.9% of germs within 30 seconds when diluted 2.7% (20ml in 750ml water).

It also has passed the BS EN 5929 (1984) Triangle Taint Test, showing it to be non-tainting to foodstuffs and safe for use where food is processed.

4x325ml | EV3/X2

Perfumed Antibacterial Bath & Washroom Cleaner

Former Name: Concentrated Bath & Washroom Cleaner

An antibacterial and descaling product that effectively removes natural oils, soap deposits and general soil from baths, sinks, showers, WCs, tiles, glass screens and hard floor coverings. Helps prevent hard water deposits from forming on surfaces and leaves a refreshing mild fragrance to deodorise the room. Contains a fresh citrus perfume.

4x325ml | EV6/X2

Window & Stainless Steel Cleaner

Former Name: Concentrated Window & Stainless Steel Cleaner

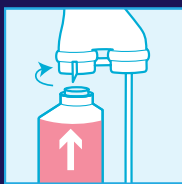

A surfactant based cleaner that effectively cuts through atmospheric grime and nicotine soil. This product is also ideal for cleaning and polishing stainless steel where a streak-free finish is required.

4x325ml | EV8/X2

Lock 'n Load Super Concentrates

Using the Evolution X2 system couldn't be any easier to use. The whole system has been designed to make refilling and using our super concentrates as simple as possible without the need for specialist dosing equipment.

Insert Concentrate

Insert the cartridge containing your chosen concentrated product into the rear position

of the Evolution X2 system. Turn the locking mechanism to securely hold the cartridge in place.

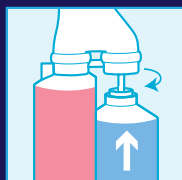

Fill Water

Fill the water cartridge with cold water from the tap. Remember to

keep this cartridge so you can reuse it every time.

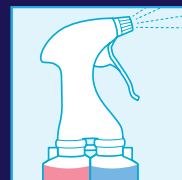

Insert Water Cartridge

Insert the full water cartridge into the front of the Evolution X2 system

ensuring that the cartridge locks into place securely against the concentrated product cartridge.

Ready To Use

The Evolution X2 system is now ready to be used. It can either be

applied on a cloth, or directly onto the surface. Always follow the directions for use specific to the concentrated product you are using.

Top Tip

When changing to another product, ensure that

you discharge any remaining product in the trigger system before inserting and using the new product.

Whenever you run out of water, simply refill the water cartridge with fresh clean water and insert back into the Evolution X2 system.

Perfumed Multi-Surface Cleaner

Former Name: Concentrated Perfumed Multipurpose Cleaner

A highly concentrated formulation designed as a versatile washroom and general purpose cleaner that has a fresh citrus fragrance.

Ideal for cleaning all hard surfaces, to remove general soiling and grime, as well as finger marks and other grease deposits that can be seen on some surfaces.

4x325ml | EV10/X2

Perfumed Antibacterial Multi-Surface Cleaner

Former Name: Concentrated Perfumed Bactericidal Multipurpose Cleaner

An effective 4-in-1 product that deodorises, descales, cleans and sanitises.

Suitable for use on tables, walls and most other hard surfaces. Leaves a refreshing, mild fragrance. Removes limescale.

The product has passed the European Suspension Test EN 1276 and has been found to be effective against bacteria after a contact time of 5 minutes.

4x325ml | EV11/X2

Evolution X2 Starter Kit

Essential to get started with the Evolution X2 system.

The kit includes the ergonomic trigger spray and a water cartridge, when you receive the kit, simply fill the water cartridge and lock it into place in the system along with your chosen super concentrate.

And don't forget to recycle the packaging it came in.

1 x Kit | EV/X2START

For a greener, cleaner world

Single Use Plastics

Switching to a concentrate system means fewer single use plastics going to landfill.

Water Savings

Using concentrates means you only use water when required to create the desired solution and with X2 you only use as much solution as you need, reducing waste solution entering the water network.

Carbon Footprint

Everything from production, storage and shipping makes less of an impact on the environment than traditional ready to use products.

Recyclable

All of our bottles and packaging are fully recyclable and, where possible, reusable.
