Introduction

YOUR TOTAL HYGIENE SOLUTIONS FOR HOSPITALITY

The Symbio Hospitality Range was introduced to provide high-quality products with simple and easy-to-understand usage and dilution instructions. The Hospitality Range has been specially formulated with safety in mind. While in their concentrated state, the chemicals may be hazardous under workplace health and safety guidelines (GHS). However, each product, where possible, has been designed to be non-hazardous at the point of use, when correctly diluted, ensuring your cleaners, staff and students are safe in their environment.

Our formulations have withstood the test of time with continual customer satisfaction. The unique benefits of this range are fast becoming a necessity to keep up with growing demands and increased hygiene requirements within the industry.

Every product selected has been purposefully trialled and proven to meet the hygiene needs of the Hospitality industry.

Closed-Loop System

The Symbio Closed-Loop System for chemical dispensing is an advanced, highly controlled, and automated setup designed to precisely manage the delivery of chemicals within a controlled environment. This technology is indispensable in industries where precision, efficiency, and safety are of the utmost importance. The system offers numerous benefits, including enhanced precision, reduced waste, heightened safety through the prevention of chemical spills or leaks, and a significant reduction in the need for human contact.

SYMBIO
CLOSED LOOP SYSTEMS

Chemical Training and Service

Chemical Training and Service (CTS) by Symbio is your all-in-one solution for chemical staff training and dispenser servicing. Our dedicated team provides expert support, from site surveys to installations, ensuring your systems run smoothly. While our online CTS portal educates and trains your staff on how to efficiently use Symbio chemicals to reduce risk. Contact us or consult your Sales Representative for more information.

Warewashing Dispenser

Warewashing dispensers take the time and confusion out of dosing chemical into your dishwasher. Simply turn on, connect chemicals and let the dispenser do the rest.

The WareDose 35 is managed by a micro-controller and is equipped with a conductivity probe to detect and keep the detergent concentration stable in the dishwasher tank. WareDose 35 is now available with connection to the SekoWeb online platform and smartphone app, which allows managers and service technicians to view live wash statistics and chemical consumption data 24/7 from any location.

Seko Promax – Water Fed Blend Center

Accurate and safe dilution at the push of a button. Whether filling spray bottles, mop buckets or floor scrubbers, operators in the hospitality, food service, and facilities management sectors achieve perfect proportioning at the push of a button with ProMax chemical mixing dispensers. ProMax dispenser units supply a solution of chemical and water at a pre-set and consistent rate. Dosing units supply a measured and consistent dose of product for preparing your chemical solutions. They can be used to prepare sinks, bottles, buckets and more, they are a neat compact unit.

Brightwell EcoShot – Waterless Blend Center

Effortlessly achieve accurate chemical dosing for your cleaning needs with our EcoShot manual dosing system. Perfect for use in areas where mains water connection is not available, this stand-alone system dispenses between 5ml and 30ml shots of detergent with just the push of a button.

Whether you need to dispense washing-up detergent, floor cleaning or surface cleaning detergents, the EcoShot is versatile and easy to use.

Developed to control odours within hotels, motels, nursing homes, hospitals, schools and restaurants leaving an enhanced long-lasting fragrance.

Size: 5L

WILD BERRY BRUMBLE PREMIUM WATER BASE AIR FRESHENER

A fresh fragrance that reminds you of a wild berry brumble, a premium water base air freshener with added odour eliminator designed to wrap itself around bad odours and destroy them. Developed to control odours within hotels, motels, nursing homes, hospitals, schools and restaurants leaving a lasting fragrance.

Size: 5L

BATHROOMS

BULLSEYE

BIOLOGICAL DRAIN MAINTAINER

Bullseye is a combination of microorganisms that effectively combat bad odours from drains by replacing the bad bacteria with good bacteria. Can be used in all drain types: vertical, horizontal, traps and pits. Safe for all material varieties of plumbing lines and reaches where mechanical drain cleaners cannot. Safe for the environment and users alike.

Size: 5L

TOILET BLOCKS

DEODORANT BLOCKS - BLUE FRAGRANCED

Environmentally friendly, septic-safe oxygen-generating toilet blocks that are effective in controlling bad odour by reducing bacteria while prolonging the life of pipes and plumbing.

Size: 4kg

URINAL SCREEN

The wave 2.0 urinal mat uses liquid specific gravity technology to minimise splashes up to 95%. Designed to dissipate the urine from the surface as quickly as possible so it may be flushed away. Not only freshens with a great fragrance but helps clean as well as eliminate malodours. Complies with voc requirements in all states, 100% recyclable. Each pack contains a disposable glove ensuring hygienic placement and disposal. Controlled release of bacteria allows for constant cleaning action. No harsh chemicals or dangerous bi-products to worry about.

Available In: Cucumber Melon | Kiwi Grapefruit | Mango | Ocean Mist | Super Lime

URINAL SCREEN

WITH ENZYME BLOCK

Ultimate 2.0 eco-mat is a world leading urinal deodoriser which saves time as it cleans as well as deodorises. Its revolutionary design releases non pathogenic bacteria with every flush which, along with containing double the fragrance of other 'look alike' screens, keep the urinal fresh for a full 30 days.

Available In: Cucumber Melon | Kiwi Grapefruit | Mango | Ocean Mist

WIZARD

ORGANIC ACID BATHROOM CLEANER

A multi-purpose organic acid based bathroom cleaner for maintaining clean and hygienic conditions around toilets and all amenity areas.

Size: 5L | 15L

DISHWASHING - AUTOMATIC

WINDOW CHANNEL WITH PLUGS AND HANDLE

Cobra channels feature unique plastic end plugs that safeguard the window frame and glass against damage. Channels feature 4 depth adjustments to get perfect rubber flex and use after trimming. Can be used clipless as one end has a built-in friction bump to retain the rubber blade. Specially designed attack angle ensures ease of use. Gives great sill depth clearance. Built-in lanyard attachment point for high rise work. Exclusive fast release system prevents accidental release. Can be moved to any point along the channel for offset work. Simple swivel adjustment from stiff to flowing for pole work. Fits most pro poles on the market
